The Western Wall Tunnel

"The excavation took over 20 years under very difficult conditions while archeological finds that can only be described as 'awesome' were uncovered. The Western Wall Heritage Foundation was assigned the task of continuing this project and bringing it to the world. With painstaking care, taking various religious, tourist, archeological, security and other considerations into account, and with Halachic (religious law) and scientific oversight, the Foundation continued with the excavation project, centimeter by centimeter, in order to uncover Jerusalem in all its former glory. Beautiful ornaments were found – archeological finds that were hugely important in understanding the city's history. And a "time tunnel" was created taking us back into Jerusalem's glory days."
